Docket No. 04-0195

Order No. **21410**

Order

I.

Introduction

On August 6, 2004, the commission, by Order No. 21221, instituted a proceeding to establish the One Call Center advisory committee ("Committee") and appoint the necessary members of the Committee, pursuant to Act 141, Session Laws of Hawaii 2004 ("Act 141") and Hawaii Revised Statutes § 269-7. Order No. 21221 also made the DIVISION OF CONSUMER ADVOCACY, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS ("Consumer Advocate") a party to this investigative docket, and invited all interested public utilities, businesses, building or construction groups, trade or contractor associations and community or civic groups to participate in this docket as intervenors, or participants without intervention, so long as these persons or entities satisfy and adhere to the commission's administrative rules (aka,

Hawaii Administrative Rules ("HAR") Chapter 6-61, Rules of Practice and Procedure Before the Public Utilities Commission) governing intervention and participation in commission proceedings.

On August 26, 2004, VERIZON HAWAII INC. ("Verizon") timely filed a motion to intervene in this docket, pursuant to HAR § 6-61-41 and 6-61-55 and Order No. 21221.

## II.

### Discussion

#### A.

##### Verizon's Motion to Intervene

HAR § 6-61-55, which governs intervention in our proceedings, requires, among other things, the movant to state the facts and reasons for the proposed intervention, and its position and interest thereto. Furthermore, HAR § 6-61-55(d) states that "[i]ntervention shall not be granted except on allegations which are reasonably pertinent to and do not unreasonably broaden the issues already presented."

In support of its motion to intervene, Verizon contends, among other things: (1) it has a significant interest in the One Call Center and the Committee; (2) it will be affected greatly by the Committee and the One Call Center; and (3) its interest in this proceeding is different from that of any potential party as Verizon "has far more underground facilities than any other telecommunications service provider[.]"

Although Verizon satisfactorily demonstrated that its interest in this proceeding is reasonably pertinent to the matters presented, we find that Verizon failed to substantiate, among other things, how it will assist in the development of a sound record and refrain from unreasonably broadening the issues or delay the proceedings.<sup>1</sup> We, therefore, find that Verizon did not satisfy the requirements of HAR § 6-61-55. Nonetheless, the commission believes that Verizon's involvement in this proceeding may provide it with relevant information or input that may be helpful in the establishment of the Committee and the appointment of the necessary members of the Committee, pursuant to Act 141. Accordingly, we conclude that Verizon should be allowed participant status without intervention, pursuant to HAR § 6-61-56. Verizon's participation, however, shall be limited to the opportunity to file a written statement of position, as discussed further below.

B.

Opportunity to Comment

On July 26, 2004 and as described in further detail in Order No. 21221, the commission issued a letter to the Utilities Damage Task Force ("Task Force") requesting recommendations from the Task Force for suitable representatives

---

<sup>1</sup>HAR § 6-61-55 states, in relevant part, that the motion shall make reference to "[t]he extent to which the applicant's participation can assist in the development of a sound record" and "[t]he extent to which applicant's participation will broaden the issues or delay the proceeding." HAR § 6-61-55(b)(6) and (7).

to fill the nine (9) seats on the Committee in accordance with Act 141.

On August 4, 2004, the Task Force submitted its letter (a copy of which is attached hereto as Exhibit B) in response to the commission's letter dated July 26, 2004 indicating its list of recommended nominees to fill the nine (9) seats on the Committee. Those recommended nominees are as follows: (1) Steven Golden, The Gas Company, LLC, representing the gas utility industry; (2) Ken T. Morikami, Hawaiian Electric Company, Inc., representing the electric utility industry; (3) Calvin Choy, Verizon Hawaii Inc., representing the telecommunications industry; (4) Don Grimes, the Airport Group, representing the pipeline operators industry; (5) Leonard Leong, Royal Contracting Co., Ltd., and Sidney Quintal, Grace Pacific Corp., representing the GCA; (6) John Cheung, CC Engineering, and Ron Oshiro, Ron's Construction, representing the BIA; and (7) Lance Ono of Oceanic Time Warner Cable representing the cable service industry. As of the date of this order, the commission neither received any other nominations for Committee members nor did it receive any comments relating to the Task Force's recommended nominees in accordance with Order No. 21221.

Prior to issuing a decision concerning the establishment of the Committee and the appointment of the necessary members of the Committee, pursuant to Act 141, the commission will allow both the Consumer Advocate and Verizon the opportunity to comment and submit a written statement of position on, among other things, the recommended nominees listed above.

Written statement of positions, if any, must be received within ten (10) days from the date of this order.

III.

Order

THE COMMISSION ORDERS:

1. Verizon's motion to intervene, filed on August 26, 2004, is denied. Instead, Verizon is granted participant status, without intervention, subject to the limitation set forth in this order.

2. The Consumer Advocate and Verizon may file written statements of position on, among other things, the recommended nominees, listed herein, to fill the nine (9) seats on the Committee. Written statements of position, if any, shall be filed within ten (10) days from the date of this order.

DONE at Honolulu, Hawaii OCT 11 2004.

**Mr. Carlito Caliboso, Chair**  
Hawai'i Public Utilities Commission  
465 South King Street, Room 103  
Honolulu, Hawai'i 96813

Dear Chair Caliboso:

I am John Cheung, President of the Building Industry Association of Hawai'i, writing in my capacity as Chair of the Utility Damage Task Force (UDTF). This letter responds to your letter of July 26, 2004, requesting names and background information for the nine nominees recommended by the UDTF to serve on the Advisory Committee for the Hawai'i One-call Center.

The UDTF was formed shortly after the 2002 Hawaii State Legislative Session in a joint, collaborative effort to minimize damages to underground facilities. This Task Force, which included participation by several public utilities, pipeline operators, a cable television provider, the Building Industry of Hawaii, the General Contractors Association, and the Hawaii Insurers Council, regularly met over the past two years to discuss various initiatives to address this concern. The establishment of a One Call Center to facilitate and coordinate the confirming and marking of underground facilities is an initiative that the Task Force jointly advocated for during the 2004 Legislative Session.

I am happy to report that the UDTF at the meeting on July 29, 2004 agreed upon all nine nominees. Their names and industry affiliations are:

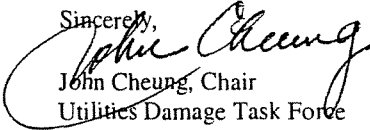

Gas Utility:	Steven Golden (The Gas Co.)
Electric Utility:	Ken T. Morikami (Hawaiian Electric Co.)
Telecommunications:	Calvin Choy (Verizon Hawai'i)
Cable Service:	Lance Ono (Oceanic Time Warner Cable)
Pipeline Operators:	Don Grimes (Airport Group)
Building Industry Association:	John Cheung (CC Engineering) and Ron Oshiro (Ron's Construction)
General Contractors Association:	Leonard Leong (Royal Contracting) and Sid Quintal (Grace Pacific Corp.)

Background information in the form of professional resumes for the nominees is enclosed, or will be provided upon receipt from the nominees. Each of these nominees and/or their employers has experience as an excavator or operator of underground facilities. In addition, each of these nominees and/or their company/organizational affiliate has been involved with the UDTF and is familiar with the proposed One Call Center.

Please do not hesitate to contact Sarah Blane at the BIA if you require immediate assistance; she can be reached at 847-4666 x204, or via e-mail at [government@bia-hawaii.com](mailto:government@bia-hawaii.com).

Thank you very much for your support of the One-call Center and its Advisory Committee. I and the other nominees to the Committee look forward to working with you on establishment and oversight of the One-call Center.

Sincerely,

  
John Cheung, Chair  
Utilities Damage Task Force

KEN T. MORIKAMI  
Director, Project Management  
Hawaiian Electric Company, Inc.

Ken Morikami joined Hawaiian Electric Company in October 1979 as an Engineer/Designer in the Transmission and Distribution Division of the Engineering Department. He moved on to different positions: Corporate Planning Analyst Aide in the Corporate Planning Department; Engineer/Designer in the Planning Division of the Distribution Engineering Department; Corporate Planning Analyst II in the Rate and Regulatory Affairs Department; Program Engineer in the Engineering Research Division of the Environmental Department; Project Manager in the Facilities and Project Management Department to his current position as Director of the Project Management Division in the Energy Delivery process area.

Prior to joining Hawaiian Electric Company in 1979, Ken was an Electrical Engineer II with the City & County of Honolulu Public Building Planning and Construction Division of the of the Building Department.

Ken graduated from Iolani School and went on to the University of Colorado, Boulder, Colorado receiving his Bachelor of Science in Electrical Engineering. Ken is a registered professional electrical engineer.

Ken is married to Michele and has a daughter Kayla.

Current and past involvements in organization/community services are:

- Project Management Institute
- American Public Works Association
- Hawaii Society of Professional Engineers
- Engineering Association of Hawaii
- St. Clement's Episcopal Church

## **Nomination of Don V. Grimes to the One Call Center Advisory Committee**

Don Grimes is the Operations Manager for Airport Group International (AGI) in Honolulu, Hawaii. AGI provides fuel facility management and is the pipeline operator for the Hawaii Fueling Facilities Corporation (HFFC) at the Airport fuel terminal, Sand Island fuel terminal, and the Pier 51A and B facilities. The facilities include U.S. Coast Guard, Federal DOT – Office of Pipeline Safety (OPS), and Air Transport Association (ATA) jurisdictional pipelines.

Don has over 28 years of experience in the petroleum industry including U.S. military and commercial operator experience with fuel distribution systems, fuel storage tanks, and other fueling facilities. He is the program manager for both the OPS-directed Public Awareness Program for Pipeline Operators and AGI's Pipeline Integrity Management Program. He has been a member on the Utilities Damage Task Force (UDTF) from its inception and actively participated in the crafting of H.B. No. 2137, the bill relating to the development of a one call center in Hawaii. He provided valuable input from the pipeline operator industry's perspective, including current practices and regulatory guidance.

Don is also a current member of the Call Before You Dig Committee, the existing voluntary organization established to prevent pipeline and utility damage in the state. This committee is attended by all Hawaiian Island pipeline operators. He maintains excellent communications with many of Oahu's stakeholders and has experience with third party damage incidents, public education programs for stakeholders including emergency responders, private and business property owners, and has a good relationship with DOT – OPS.

Don has Associates of Art degrees in Petroleum Logistics and Business Management. He is well respected in the petroleum industry and has served the UDTF well for the past two years. The Building Industry Association and UDTF believe Don would be an outstanding member of the One Call Center Advisory Committee and recommend his appointment
